NEW WASTE MANAGEMENT ACCESS CHARGE

In order to continue to provide an efficient weekly waste collection service as well as the ability for residents to access waste transfer stations to dispose and recycle additional waste Council has restructured the Waste Management Service Charges (weekly waste collection services) and introduced a Waste Management Access Charge.

What does this mean for me?

If you currently receive a weekly waste collection service, there will only be a net increase of 3% on the waste component of your 2010 rates.

The 3% increase equates to the CPI increase necessary to maintain existing levels of service. The new Waste Management Access Charge of \$25 will be offset by a reduction of \$25, less the CPI increase, on the weekly waste collection (Red Bin) charge.

Residents who do not pay a weekly waste collection service charge will now pay \$25 per annum.

What will the new Waste Management Access Charge be used for?

The new charge will be used to fund the upgrading and provision of new waste transfer stations and to offset some of the increases in waste disposal fees as a result of the State Government's waste levy.

Under the provisions of State Regulations, Council is not able to use Domestic Waste Management Service Charges to fund waste transfer stations.

Additional Information?

If you require additional information on the Waste Management Access Charge contact Council's Waste section on (02) 6581 8111.

RADIO FREQUENCY IDENTIFICATION AT PORT MACQUARIE-HASTINGS LIBRARIES

Over the next two months, Port Macquarie-Hastings libraries will be preparing for the introduction of a new system which will allow borrowers to check out their own books.

While Council hopes to keep disruptions to a minimum during this change-over, some sections of the libraries may be closed off for short periods of time. Council apologises for any inconvenience to library users during this time.

COUNCIL PROPERTIES FOR SALE

Council currently has a number of residential and industrial properties for sale. They include:

- 6,652m² of prime industrial vacant land in Belah Road Port Macquarie - sale price \$1.3 million
- 1,608m² industrial block on the corner of Uralla and Jindalee Roads Port Macquarie - sale price \$420,000
- 2.48 ha of attractive residential land on the corner of High Street and Blackbutt Drive Wauchope - sale price \$850,000

Contact Jeff Walton in Council's Property section on (02) 6581 8111 for further details on these and other Council sites available for purchase.

DRIVER REVIVER VOLUNTEERS REQUIRED

The Hastings Driver Reviver Centre will operate each Friday and Sunday of the school holidays, commencing 1st July between the hours of 7am and 6pm. The centre is located on the corner of the Pacific Highway and Fernbank Creek Road.

Anyone wishing to volunteer their time to assist with the operation of this facility can contact Les Phipps on (02) 6582 5735.

E-WASTE COLLECTION 23rd – 24th JULY 2011

Households can recycle unwanted electronic items in July across the mid north coast at an e-waste collection day hosted by Midwaste Regional Waste Forum and Port Macquarie-Hastings Council.

Residents can take unwanted computer, television, entertainment and home office equipment to the free drop off point located at the Player's Theatre carpark in Port Macquarie between 9:00am and 4:00pm on 23rd and 24th July.

E-waste doesn't belong in the bin. Keeping e-waste out of landfill helps prevent hazardous substances such as lead, mercury and chromium potentially leaching into soil and groundwater. In addition, the recycling process saves valuable energy and the need to extract natural resources required to make new products.

All items collected on the day will be manually dismantled in Australia and their components (including plastic, metals and glass) sent for recycling.

Schools and other educational institutions can arrange to drop off e-waste on Friday, 22nd July.

For more information, contact Ali Bigg on (02) 6585 0887 or by email at coordinator@midwaste.org.au

PUBLIC NOTICES

Notice is given in accordance with Section 101 of the Environmental Planning and Assessment Act, 1979 of the determination of the following Development Consents and/or Complying Development Certificates.
