Appendix 2 – Port Macquarie Airport

- RPT – Regular Public Transport
- GA – General Aviation
- Definition of private aircraft – used solely for private purposes where no income is generated from the aircraft use by the operator.
- Definition of commercial aircraft – used primarily for charter or other operations where income is received by the operator, excluding regular passenger / commercial services
- Council may choose to waive or reduce a fee pursuant to S610E(1) of the Local Government Act

Operators wishing to pay the annual fee are required to apply in writing outlining their aircraft registration number, confirming that it is parked and operated out of Port Macquarie Airport and describing the purposes for which the aircraft is used (ie commercial or private use).

An additional fee applies where any flying machine not registered on the “VH” register is provided with storage/hangar in a leased area. The hangar lessee will be charged the annual fee for a commercial ultra-light, micro-light or similar, for each such aircraft, or the ‘private fee’ where the lessee declares such machine as a private aircraft (describing any external markings for identification).

Charges to increase by the annual CPI figure as at December plus provision for maintenance project costs and items identified in the Business Plan. In the event of negative CPI, the fees remain constant from the previous year. Charges are to be rounded up to the nearest five (5) cents.

A movement charge will be levied based on broadcasts over the MBZ or CTAF(R) (radio) Frequency as mandated by Civil Aviation Safety Regulations and the Aeronautical Information Publication if:

- (a) An onground aircraft broadcasts the intention to taxi and enter runway 03/21 or runway 10/28
- (b) An airborne aircraft broadcasts the intention to join the circuit or broadcasts the intention to undertake a straight approach

A ‘lost ticket’ fee shall apply for any lost ticket. The ‘lost ticket’ fee shall be determined by the General Manager or delegate as appropriate to suit operational circumstances.
